

The BeLive charity gala has been taking place in Miami for 5 years now. 6 well-known Colombian foundations created in the United States join their efforts in order to create an international awareness about our country's problems and needs. The foundations that make part of BeLive work in areas such as education, health, sports, nutrition, displacement and economic development, in favor of the most vulnerable and less favored locations in the country. During the event, products that have been donated are auctioned and sold, and famous artists that look forward to support the cause make their presentations, which makes the charity gala a great event, with increasing attendance year after year.
